

The Shadeside™

Retractable Sun & Privacy Shade

The Shadeside™ is a retractable system that provides shade and privacy for your outdoor area. Because it is retractable, it provides a home owner total control of its space through the convenience of rolling it up or extending it out. The Shadeside™ can be added to complement a Sunesta™ patio awning or it can be used by itself. The Shadeside™ offers a choice of hundreds of fabrics ranging from acrylic fabric to match an awning or decorative solar screen fabric that can allow flow-through of wind and light. Like all Sunesta™ shade systems, the Shadeside™ is custom made to fit your needs.
