

# The Suncover<sup>TM</sup> Retractable Shelter

## The Suncover<sup>TM</sup> Retractable Shelter

Shielding you from the sun, The Suncover can be mounted atop an existing structure such as a pergola, skylight or sunroom. With single unit widths up to 16 by 23 feet and the ability to join multiple units, the coverage is only limited to your space. The Suncover offers a choice of hundreds of fabrics ranging from acrylic to decorative solar screen and waterproof fabrics. Like all Sunesta<sup>TM</sup> retractable systems, the Suncover<sup>TM</sup> is custom made to fit your needs.

# The Suncover<sup>TM</sup> Retractable Shelter

## For Your Sunroom

Sunrooms can get very hot in the summertime. Now, thanks to the Suncover, you can enjoy your sunroom year-round with complete sun protection.

## For Existing Structures

Pergolas are a beautiful addition to your home, but do not provide protection from the elements. The Suncover allows your pergola to look great while shielding you from sun.
